

## Wireframe for Project: Mass Lotto Under a Microscope

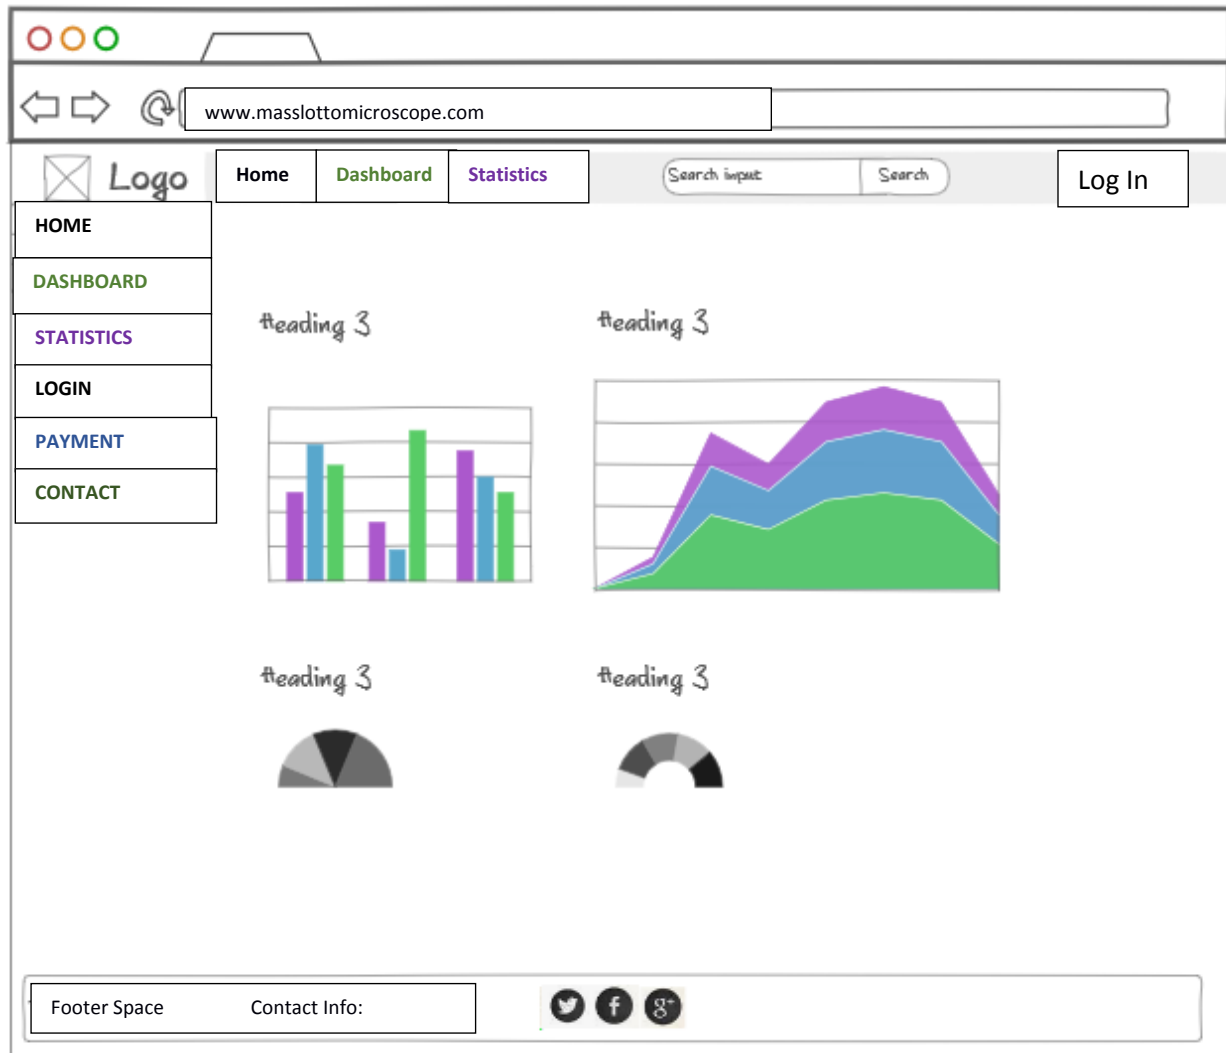

1. Wireframe page one: Home Page (Summary information giving a general presentation of the web application, and how to review the information presented).

Stretch Feature-1b. Added Wireframe to capture more of a history and background on lottery system:

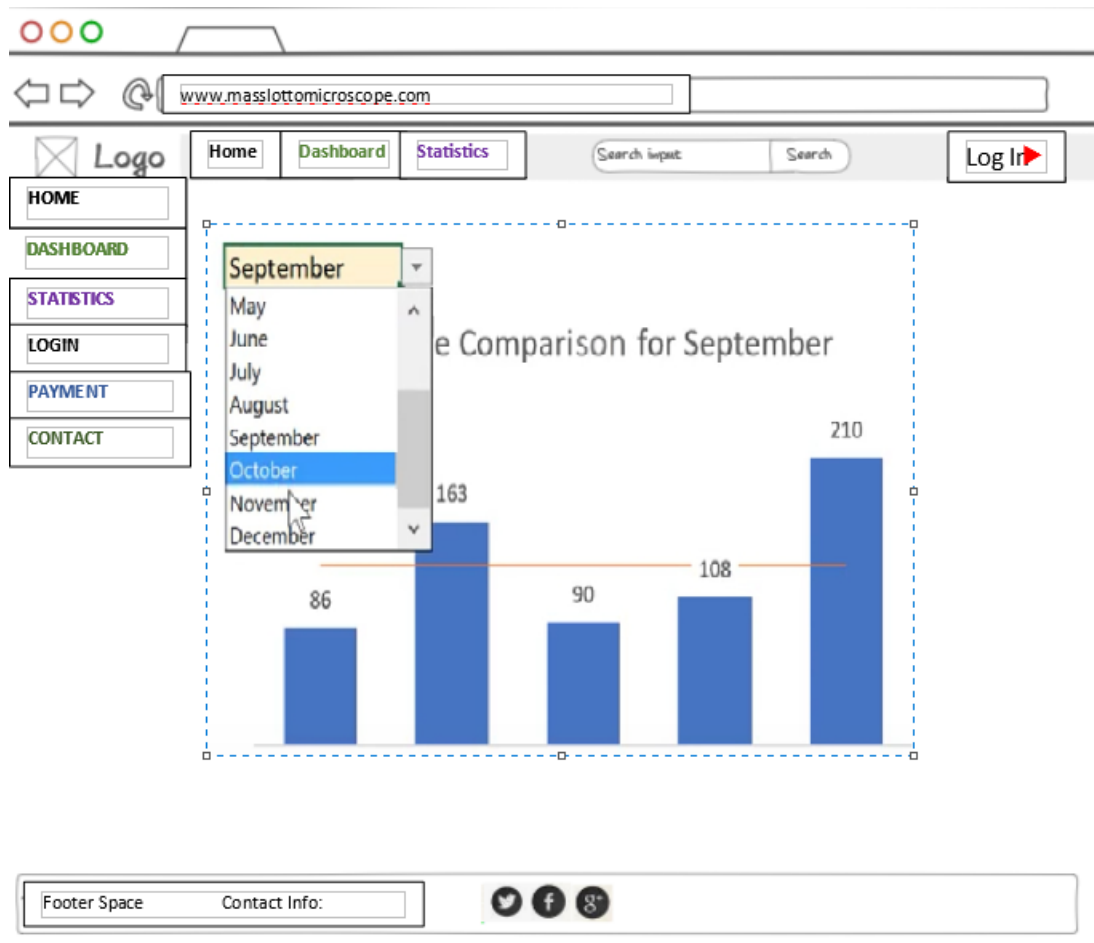

2. Wireframe page two: Dashboard page (Gives some graphs pertaining to frequency and time periods).

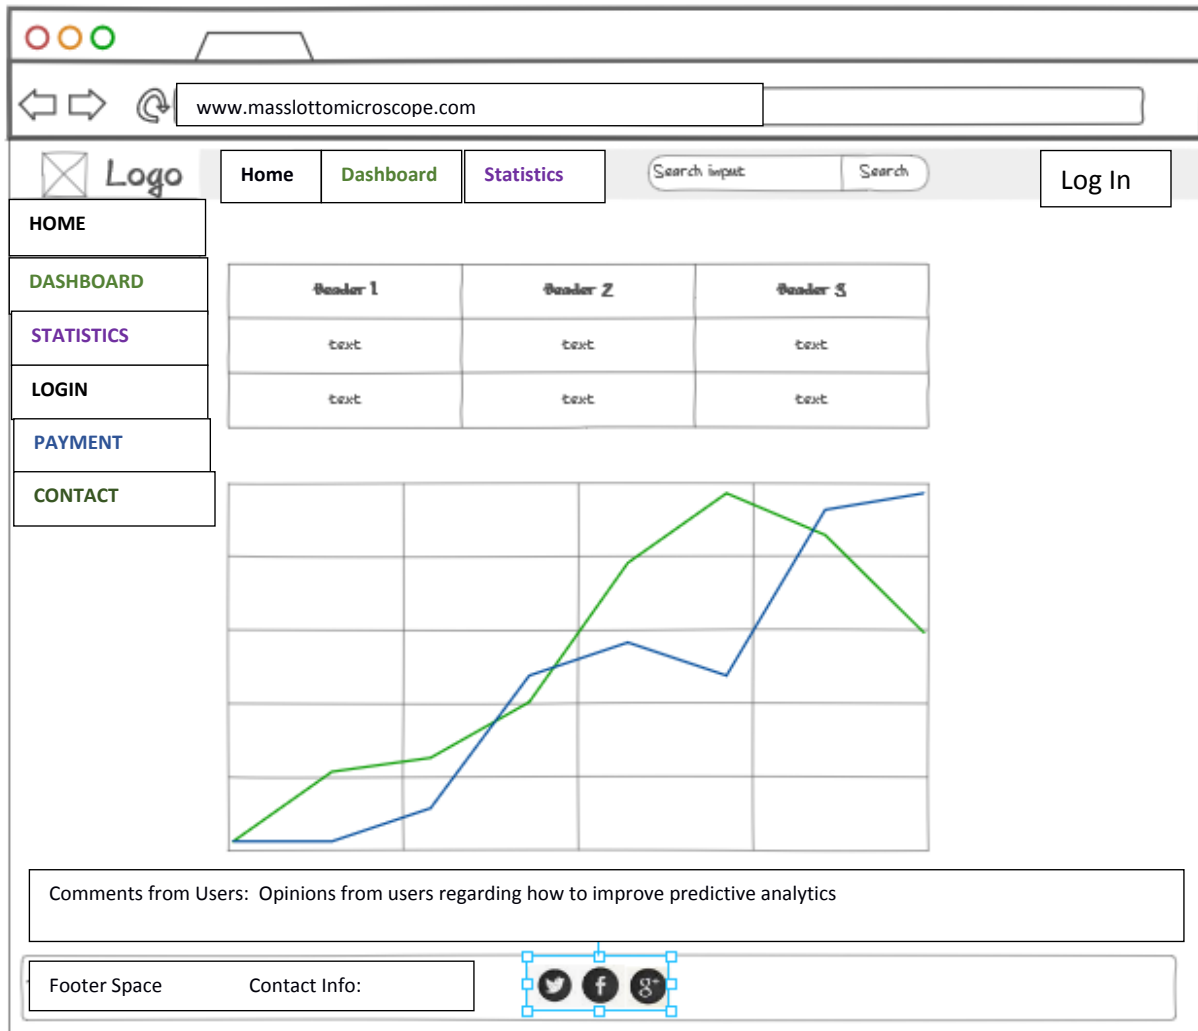

## 2b. Add Interactive graphs:

**Stretch Feature:** Add more selections to graphs, which allow users to pick and choose specific time frames or data for comparison.

3. Wireframe page three: Statistics page (More information regarding statistics, and extra comment section for ideas and improvements). This could be extra data feeds in raw format to allow user to draw upon their own observations or analysis.

4A. Wireframe 4A: Login page where users can sign in with existing user name and password. For users who are new, they will need to go through wireframe 4B and go through the steps to create user/password combination.

4B. Wireframe 4B: For users who are new to the system, and need to create password. I decided to remove this from the web app because creating the back-end to log on would take too long. This way, more focus is placed on designing interactive and dynamic graphs.

The wireframe depicts a web browser window with the URL `www.masslottomicroscope.com`. The page layout includes a top navigation bar with a logo, a menu (Home, Dashboard, Statistics), a search bar, and a 'Log In' button. A left sidebar contains links for HOME, DASHBOARD, STATISTICS, LOGIN, PAYMENT, and CONTACT. The main content area features a heading 'Heading 2' and a registration form. The form is divided into two sections: 'Please fill in Username and Password' and 'Please fill in your'. The first section contains fields for Username (10-15 characters), Password (6-10 characters), and Confirm Password. The second section contains fields for Name, Surname, Email, and Mobile Phone No. Below these is a section for password recovery: 'In case of forgotten password, please submit a question and answer for retrieval:', with fields for Question (1-10 characters) and Answer (1-10 characters), and a 'Submit' button. The footer contains 'Footer Space', 'Contact Info:', and social media icons for Twitter, Facebook, and Google+.

5. Wireframe page five: Payment Page. This might be a donation page instead. Radio button created to show different donation options, and credit card or Paypal account information submittal.

The wireframe depicts a web browser window with the URL `www.masslottomicroscope.com`. The page layout includes a top navigation bar with a logo, links for Home, Dashboard, and Statistics, a search bar, and a Log In button. A left sidebar contains links for HOME, DASHBOARD, STATISTICS, LOGIN, PAYMENT, and CONTACT. The main content area features a heading, an inline form with fields for Email, Password, a Remember me checkbox, and a Sign in button. Below the form are three radio button options (Option 1, Option 2, Option 3) and a dropdown menu labeled Select. To the right is a credit card payment section titled Invoice, showing logos for VISA, MasterCard, American Express, and Discover, along with fields for Card number, Name on card, and Expiry date, and a Pay button. The footer contains a Footer Space, Contact Info, and social media icons for Twitter, Facebook, and Google+.
